VFQ
Foundations

emergn

At Emergn, we believe that people and companies can improve the way they work and achieve better outcomes by following three guiding principles:

DELIVER VALUE EARLY AND OFTEN

OPTIMIZE THE FLOW OF WORK END-TO-END

DISCOVER QUALITY WITH FAST FEEDBACK

Together, these principles reflect a pragmatic philosophy of the world of work that you can apply to transform your business or to grow professionally. To help you along the journey, we developed and continue to refine a trusted set of models, techniques and tools, along with unique guidance on concepts, frameworks and methods. We call it VFQ.

At Emergn, we believe that learning should be a life-long activity. More importantly, in the world of work, it should be a central part of an employee's journey from being a new joiner through the rest of their career.

70 20 10

IN WORK LEARNING   **COACHING**   **EDUCATION**

Course objectives

On completion of this course, participants will be able to confidently apply a thorough understanding of VFQ guiding principles and essential practices that go beyond specific agile frameworks such as Scrum and Kanban.

Cohort size

Because we are optimizing for learning, we limit each cohort to a maximum of 12 people, with a minimum of 8. We've found that doing this gives everyone a chance to ask questions, discuss and share ideas for changing the way teams work.

Time allowance

This course is designed to maximize the outcomes by applying the learning to real work while taking into consideration the demands on people's time.

- Two 8-hour courses

Who is this course for?

The course goes beyond methodologies, it is for people who are supporting teams working within the organization to improve the way products, teams and projects run and function.

Value
Flow
Quality

Course
outline

The course is held over two days and runs for 8 hours each day. The course is a mixture of work-based activities, discussions and case studies. Participants are not expected to do any prerequisite reading before the course. Each session will be wrapped up with an explanation, and a discussion on how it might be applied within the participants' context.

VFQ Foundations

Day 1

Covering the VFQ guiding principles and essential practices:

- Introducing the guiding principles and essential practices
- Understanding and setting goals
- Discovering and handling biases and heuristics
- The need for experimentation
- Value propositions

Day 2

Covering the VFQ guiding principles and essential practices:

- Understanding your customer
- Delivering early and often
- Visualization
- Understanding the flow of work
